FOR IMMEDIATE RELEASE

SYPRIS ESTABLISHES SENIOR ADVISORY BOARD

FOCUS ON NATION'S CYBER AND INFORMATION SECURITY NEEDS

TAMPA, FL. (January 12, 2010) – Sypris Electronics LLC, a subsidiary of Sypris Solutions, Inc., announced today that it has established a Senior Advisory Board to assist with the acceleration of the development and implementation of solutions to our nation's growing Cyber and Information Security needs.

The Senior Advisory Board is comprised of distinguished leaders from the armed services, government agencies and private sector organizations, each of whom were specifically recruited because of their situation-specific knowledge, senior level experience and ability to offer the targeted insight necessary to address our nation's security issues.

The Senior Advisory Board includes:

- **Lieutenant General August Martin Cianciolo** (ret.), former Military Deputy, Office of the Assistant Secretary of the Army (Research, Development and Acquisition) / Director of the Army Acquisition Corps;
- **Lieutenant General Lincoln D. Faurer** (ret.), former Director of the National Security Agency;
- **Dr. Robert L. Geisler**, former Director of Vehicle Systems, Air Force Rocket Propulsion Laboratory;
- **Russell E. Haney**, former President, Government Communications Systems Division of Harris Corporation;
- **Robert F. Lentz**, former Deputy Assistant Secretary of Defense for Cyber, Identity and Information Assurance in the Office of the Assistant Secretary of Defense, Networks and Information Integration/Chief Information Officer, U.S. Department of Defense;
- **Rear Admiral Daniel P. March** (ret.), former Commander, 7th Fleet, U.S. Navy; and
- **Brigadier General Robert E. Wynn** (ret.), former Commanding General, Information Systems Engineering Command, U.S. Army.

"The members of the Senior Advisory Board represent an important cross section of leaders from a variety of the services and agencies that are tasked with maintaining our national security," stated John Walsh, President of Sypris Electronics. "We look forward to working closely with these individuals to accelerate the targeted deployment of products and services to address this vital need of our country."

-MORE-

Sypris Electronics is a world-class, integrated systems solutions provider. Our ruggedized electronic products, advanced engineering services and complete electronic manufacturing capabilities are aligned to provide our customers the best people, practices and technologies to continually exceed expectations. We consistently promote an agile, innovative culture by strategically partnering with leading-edge technology companies, agencies and universities. With over 40 years of experience, Sypris Electronics is proud to develop, manufacture and integrate leading technologies into mission critical electronics systems that secure America's interest.
